## SUMMARY

For the past 2 years, I have been working on implementing and customizing Enterprise Resource Planning (ERP) systems (Windows Application and Website). I have hands-on experience in ERP modules such as Finance, Sales, and Purchase, and have delivered tailored solutions for clients across various industries. Full Stacked Developer.

## EXPERIENCE

### YGL Convergence Berhad — *software Engineer*

January 2022 -

With extensive expertise in implementing and customizing Enterprise Resource Planning (ERP) systems, I have delivered tailored solutions for clients across diverse industries. In addition to my proficiency in ERP modules such as Finance, Sales, and Procurement, I am well-versed in software development using VB and SQL, and experienced in Agile methodologies and project management.

### Intel Technology Sdn Bhd — *System Validation Engineer Trainee*

May 2021 - August 2021

As a System Validation Intern at Intel, I specialize in automating THC (Touch Host Controller) test content. I have a strong understanding of software development processes and experience in programming languages and tools such as Python, C++, and Git.

## EDUCATION

### University Of Greenwich — *Degree*

January 2020 - December 2021

BACHELOR'S DEGREE IN COMPUTING - CGPA:3.67

### SEGi College — *Diploma*

August 2017 - December 2019

DIPLOMA IN INFORMATION TECHNOLOGY - CGPA:3.47
